

Project Examples

FAATSAT (DITCO, DISA) - \$160 Million Federal Aviation Administration Telecommunications Satellite System. CORE developed, integrated and maintained an integrated C4I hardware / software system that provides secure, redundant, real-time, autonomous 24/7 operation of telecommunications, radar and weather systems. FAA certified solution.

Honored by the FAA for distinguished service during and after Hurricane Katrina.

Battelle - CYTYC ThinPrep Imaging System - \$25 Million Cancer Detection System.

CORE provided principal engineering support by creating the process, methodologies, management, development architecture, software implementation and verification for an FDA certified Class II device. Winner of the **MDEA Gold Award** for best medical device of the year 2004.

L-3 Avionics - SmartDeck System - Principal software engineering and management for creation of the Navigation System Software (HSI, ILS, Radio Navigation etc.). FAA Do-178b certified software.

SOCOM / OST - T&E support for management oversight and technical support for \$100+ Million DARPA C4I program.

AirForce - Management of team providing T&E support for fault simulation threat awareness / verification for the A10 aircraft system.

Teaming

We provide our clients the best possible value and quality by teaming with other outstanding businesses that share our mission goals and can provide synergies for success.

HMS Technologies, INC.

(www.hmstech.com)

- Certified SDVOSB
- DoD's First SDVOSB of the Year 2007
- Support for VETS GWAC and many other Vehicles
- Mobile Computing, Health Care, First Responder Technologies

DATA PATH **DataPath, Inc.**
Defy boundaries. Communicate anywhere. (www.datapath.com)

- Premier SATCOM Systems Provider to ARMY
- Integrated Mobile and Fixed Communication Systems
- Network Integration and Automation
- NOC Services / In-Theater Operations

EO R **Electronic On Ramp, Inc.**
ELECTRONIC ON-RAMP IT & Security Services (www.eor.us)

- Crypto, Security / IT

IS **ImageStream** **ImageStream**
Leading the Router Revolution (www.imagestream.com)

- High Speed, Scalable Router Systems
- Best Price / Performance / Quality in the LAN/WAN Market

History

CORE Integrated Technologies, Ltd. was founded in 1995 by a computer engineer with a simple notion that all systems utilize some portion of a common CORE set of fundamental processes and concepts. If a set of CORE “frameworks” can be verified, managed, maintained and refreshed to keep pace with new technologies and standards, our clients would benefit from our cultivated experience, higher efficiencies due to reuse, lower risk due to proven verified methods and higher quality solutions.

OUR Client Mission:

Provide the highest level of Professionalism, Integrity, Quality and Customer Service to our clients.

OUR CORE Mission:

Continually Enrich, Refine, Verify and Maintain our CORE capabilities, frameworks, personnel and teaming relationships; and utilize them to solve our clients problems efficiently, with flexibility, with lowest possible risk and with maximum value added to their mission.

A Certified SDVOSB Company

About Us...

We employ or team with other companies to retain the most experienced and multi-faceted engineers, managers and executives in support of our CORE mission.

We provide proven:

- Technical Approaches for the Development or Enhancement of Existing and New Systems
- Strategic Planning, Contract Management, Team Building
- Project and Program Management
- Risk Management
- Concept Development and Requirements Analysis
- System Engineering and Requirements Management
- Process Development, Standards and Regulatory Management / Quality Assurance
- Engineering and Integration (electrical, mechanical, software, industrial design)
- Test and Evaluation (simulations, automated test)
- Regulatory and Independent Verification and Validation
- Documentation and Administration Support

Experience

In performing our mission, CORE has had the privilege of helping our clients solve many problems both great and small across many different industries and for many international companies.

CORE has experience working in CONUS, Canada, Mexico, South America, South Africa, the Middle East, Eastern and Western Europe, Australia, New Zealand, Singapore, the Philippines, China and Papua New Guinea.

Clients

(Commercial and Government)

DoD, SOCOM, OST, DARPA, DISA, DITCO, FAA, L-3 Avionics, Battelle Memorial Institute, Fairchild Corporation, MCI, WANG Federal, EOR, National City Bank, Digicel, DEA, NZ Telecom, ACT Networks, SSE Technologies and many others...

Industries and Capabilities

Mission Critical Software
Embedded Real Time Software
Embedded Electronics and Sensors
C4ISR
Satellite and Terrestrial Communications
Wireless Networking and Locating
Avionics
Medical Devices
Health Care Systems
Robotics and Automation
Security and Cryptography
